

# Allianz US Short Duration High Income Bond - PT - USD

Income-oriented fund for US high-yield bonds

## Investment Objective

The fund concentrates on high-yielding US bonds with short duration. The aim is to attain above average income at below average volatility. At least 70 % of fund assets have to be invested in high-yielding securities (upon purchase). Non-USD currency exposure exceeding 20 % of fund assets is to be hedged against US-Dollars. Sustainability aspects are taken into account by the fund management. For more information on the investment strategy, the permissible asset classes and the sustainability approach, please refer to the sales prospectus.

## Opportunities

- + Particular yield potential of high-yield bonds
- + Capital gains opportunities on declining market yields
- + Investments target the US market
- + Broad diversification across numerous securities
- + Possible extra returns through single security analysis and active management
- + Potential currency gains with share classes not hedged against investor currency
- + Sustainability aspects are taken into account by the fund management. For more information on the sustainability approach, please refer to the sales prospectus

## Risks

- High-yielding bonds entail above-average risk of volatility, illiquid markets and capital loss. The volatility of fund unit prices may be strongly increased.
- Interest rates vary, bonds suffer price declines on rising interest rates.
- Underperformance of the US high-yield market possible
- Sustainability approach narrows the investment universe
- Limited participation in the yield potential of single securities
- Success of single security analysis and active management not guaranteed
- Potential currency losses with share classes not hedged against investor currency

## FOR FUND DISTRIBUTORS AND PROFESSIONAL INVESTORS ONLY

- 1) Calculated at the net asset value, excl. front-end load, distributions reinvested. Calculation according to method as defined by BVI, the German Fund Companies Association. **Any front-end loads reduce the capital employed and the performance.**
- 2) SFDR: EU Sustainable Finance Disclosure Regulation. Information accurate at time of publishing.
- 3) If the currency in which the past performance is displayed differs from the currency of the country in which the investor resides, then the investor should be aware that due to the exchange rate fluctuations the performance shown may be higher or lower if converted into the investor's local currency.
- 4) The Sharpe ratio states the relationship between the return generated by the fund and the investment risk. The fund's excess return versus the risk-free market rate is compared to volatility. Negative values are not meaningful.
- 5) Volatility measures the fluctuation range of the fund's performance over a specified period of time.
- 6) This is for guidance only and not indicative of future allocation.
- 7) Bond ratings stated above are assigned by S&P and are not indication of an issuer's credit worthiness. Ratings range from AAA (highest) to CCC (lowest). The credit quality of the investments in the portfolio does not apply to the stability or safety of the portfolio itself.
- 8) If the acquisition of Fund units is subject to a sales charge, up to 100% of such sales charge may be collected by the distributor; the exact amount shall be mentioned by the distributor as part of the investment advisory process. This also applies to any payment by the Management Company of an ongoing distribution fee from the all-in fee to the distributor. The all-in fee includes the expenses previously called management, administration and distribution fees.
- 9) TER generally: Total cost (except transaction costs) charged to the fund during the last financial year. TER for funds-of-funds: The costs incurred by the fund itself (except transaction costs). Since the fund held other investment units ("target funds") in the reporting period, further costs, charges and fees may have been incurred at the level of the target fund.
- 10) Yield-To-Worst represents the lowest potential yield that an investor could theoretically receive on the bond up to maturity if bought at the current price (excluding the default case of the issuer). The yield to worst is determined by making worst-case scenario assumptions, calculating the returns that would be received if worst-case scenario provisions, including prepayment, call or sinking fund, are used by the issuer (excluding the default case). It is assumed that the bonds are held until maturity and interest income is reinvested on the same conditions. The yield to worst is a portfolio characteristic; in particular, it does not reflect the actual fund income. The expenses charged to the fund are not taken into account. As a result, the yield to worst does not predict future returns of a bond fund.
- 11) The yield to maturity of a bond indicates what capital growth p.a. is theoretically possible up to maturity, if bought at the current price. In addition to coupon income, any price gains/losses up to repayment of the bond are taken into account. The yield to maturity of a fund is the weighted average of the yield to maturity of all the bonds that are held. It is assumed that the bonds are held until maturity and interest income is reinvested on the same conditions. The yield to maturity is a portfolio characteristic; in particular, it does not reflect the actual fund income. The expenses charged to the fund are not taken into account. As a result, the yield to maturity is not suitable as an indicator of the future performance of a bond fund.

### Important information

The sub-fund is not for sale to or for the benefit of any U.S. person.

**Investing involves risk.** The value of an investment and the income from it may fall as well as rise and investors might not get back the full amount invested. Funds mentioned are sub-funds of Allianz Global Investors Fund SICAV, an open-ended investment company with variable share capital organized under the laws of Luxembourg. The value of the shares which belong to the Share Classes of the Sub-Fund that are denominated in the base currency may be subject to an increased volatility. The volatility of other Share Classes may be different.

Past performance is not a reliable indicator of future results. If the currency in which the past performance is displayed differs from the currency of the country in which the investor resides, then the investor should be aware that due to the exchange rate fluctuations the performance shown may be higher or lower if converted into the investor's local currency. This is for information only and not to be construed as a solicitation or an invitation to make an offer, to conclude a contract, or to buy or sell any securities. The products or securities described herein may not be available for sale in all jurisdictions or to certain categories of investors. This is for distribution only as permitted by applicable law and in particular not available to residents and/or nationals of the USA. The investment opportunities described herein do not take into account the specific investment objectives, financial situation, knowledge, experience or specific needs of any particular person and are not guaranteed. The views and opinions expressed herein, which are subject to change without notice, are those of the issuer companies at the time of publication. The data used is derived from various sources, and assumed to be correct and reliable, but it has not been independently verified; its accuracy or completeness is

not guaranteed and no liability is assumed for any direct or consequential losses arising from its use, unless caused by gross negligence or willful misconduct. The conditions of any underlying offer or contract that may have been, or will be, made or concluded, shall prevail. For a free copy of the sales prospectus, incorporation documents, daily fund prices, key investor information, latest annual and semiannual financial reports, contact the management company Allianz Global Investors GmbH in the fund's country of domicile, Luxembourg, or the issuer at the address indicated below or [www.allianzgi-regulatory.eu](http://www.allianzgi-regulatory.eu).
